

Just Sit Back

(verse 1)

Now don't be so worried. Oh come on, stop your crying.

You've lifted it up to him, didn't you.

And you know it's in his hands.

I know things seem worse every day. Don't worry, it will be okay.

It may take time but things will change. So just relax in faith.

(chorus)

Just sit back and watch him work. Now that it's in his hands.

Just sit back and let him move. Sometimes slow. Sometimes fast.

Watch events bring miracles. Watch how things change.

Just sit back and watch him work. You will be so amazed.

(verse 2)

Don't let time discourage you. He is there and knows what to do.

He will work it out in a perfect way.

One you never dreamed could come true.

See what he brings in your life. Everything will work out right.

In his eyes, it's already done. So just relax and watch.

(to chorus)

(Bridge)

When you feel hopelessness come to you, pray till it goes away.

When you feel divine guidance, follow him. Never stray.
