

May It Be

(verse 1)

Another day is at an end and I look at what I've been.

I see now the need for a change within.

Tomorrow is the day I try living a new way.

May I focus on you the entire day.

(chorus)

Every word I say, every breath I take, may it be like you.

Every step I take, every move I make, may it be with you.

Every truth I claim, every choice I make, may it be for you.

(last) May it be. Oh may it be for you.

(verse 2)

First thing when I wake may I be on my knees with praise.

And stay in my heart throughout the day.

With every new trial, may I let you lead the way.

Give me the strength, oh Lord, for this I pray.

(to chorus)

(Bridge)

I start with one day, each moment with praise.

May everything I do magnify you.

(to chorus)
